INSTRUCTIONS FOR ORDERING

WHEN ORDERING:

Minimum total orders should be at least 100 cuttings.
All varieties should be ordered in multiples of 50.

PRICES:

Price per 100 opposite each variety on order sheet.

Price per 25, add one cent per cutting over and above the price per 100.

DISCOUNTS: 10% Discount CASH WITH ORDER.

TERMS: Cash to all customers. At least 50% of the amount must be enclosed with your order if you want us to send it C. O. D. This part payment is necessary because of the perishable nature of the cuttings. If shipment is refused for any reason it is usually a total loss.

DELIVERY: Most shipments will be made by Express collect or if sent by Parcel Post an invoice for Parcel Post charges will accompany invoice for plants.

CLAIMS FOR DAMAGES: If plants are damaged upon arrival, NOTIFY YOUR EXPRESS AGENT IMMEDIATELY. Get a BAD ORDER REPORT made out and signed by him. If this is done, your claim will receive prompt attention. You may file the claim direct, or if you prefer, mail us the bad order report, invoice and express receipt, and we will file claim for you. Our packing is all done by men of experience who have done it for years and any trouble must be settled with the carrier. However, we will do all we can to assist you.

NO GUARANTEE: While we use every possible care to have all varieties properly labeled and true to name, we, Geneva Floral Co., Inc., give no warranty expressed or implied, also we cannot guarantee a crop as growing depends entirely upon the grower. Our liability, in all instances, is limited to the purchase price of the plants.

CANCELLATION: Must reach our office at least 10 days before scheduled shipping date. However, if all or any part of your order has been shipped, we can cancel the **UNSHIPPED PORTION** only.

CARE OF CUTTINGS WHEN RECEIVED: If your cuttings seem wilted, remove wrappers and dip them tops and all in cool water and set the roots loosely in a flat of damp moss for a few hours, or overnight, out of doors in the shade or under a cool bench where the wind does not blow on them. If you do this you will find they will revive 100% and then are ready to pot or transplant. **NEVER POT A WILTY PLANT.** You may need to shade some according to the weather. A little wilting after potting will not harm and a light syringing occasionally will help very much. If cuttings are crisp the morning after 24 hours from potting this shows they are taking water and your danger from shipping is over.

Orders accepted will be subject to the above terms.

GENEVA FLORAL COMPANY, INC.

P. O. Box 176 — Mayville, N. Y.

The first part of the paper is devoted to a general
 discussion of the problem. It is shown that the
 problem is of great importance in the theory of
 functions. The second part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The third part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The fourth part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The fifth part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The sixth part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The seventh part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The eighth part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The ninth part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions. The tenth part is devoted to a
 detailed study of the problem. It is shown that
 the problem is of great importance in the theory of
 functions.
